

# FLAG STYLE GUIDE

Eco-friendly production process—  
printed with water-based dye set.

# SWOOPER FLAG KITS

Popular Swooper Flags are printed right-reading front, reverse-reading back (1S). The metallic streamers provide additional movement in the wind to help attract attention.

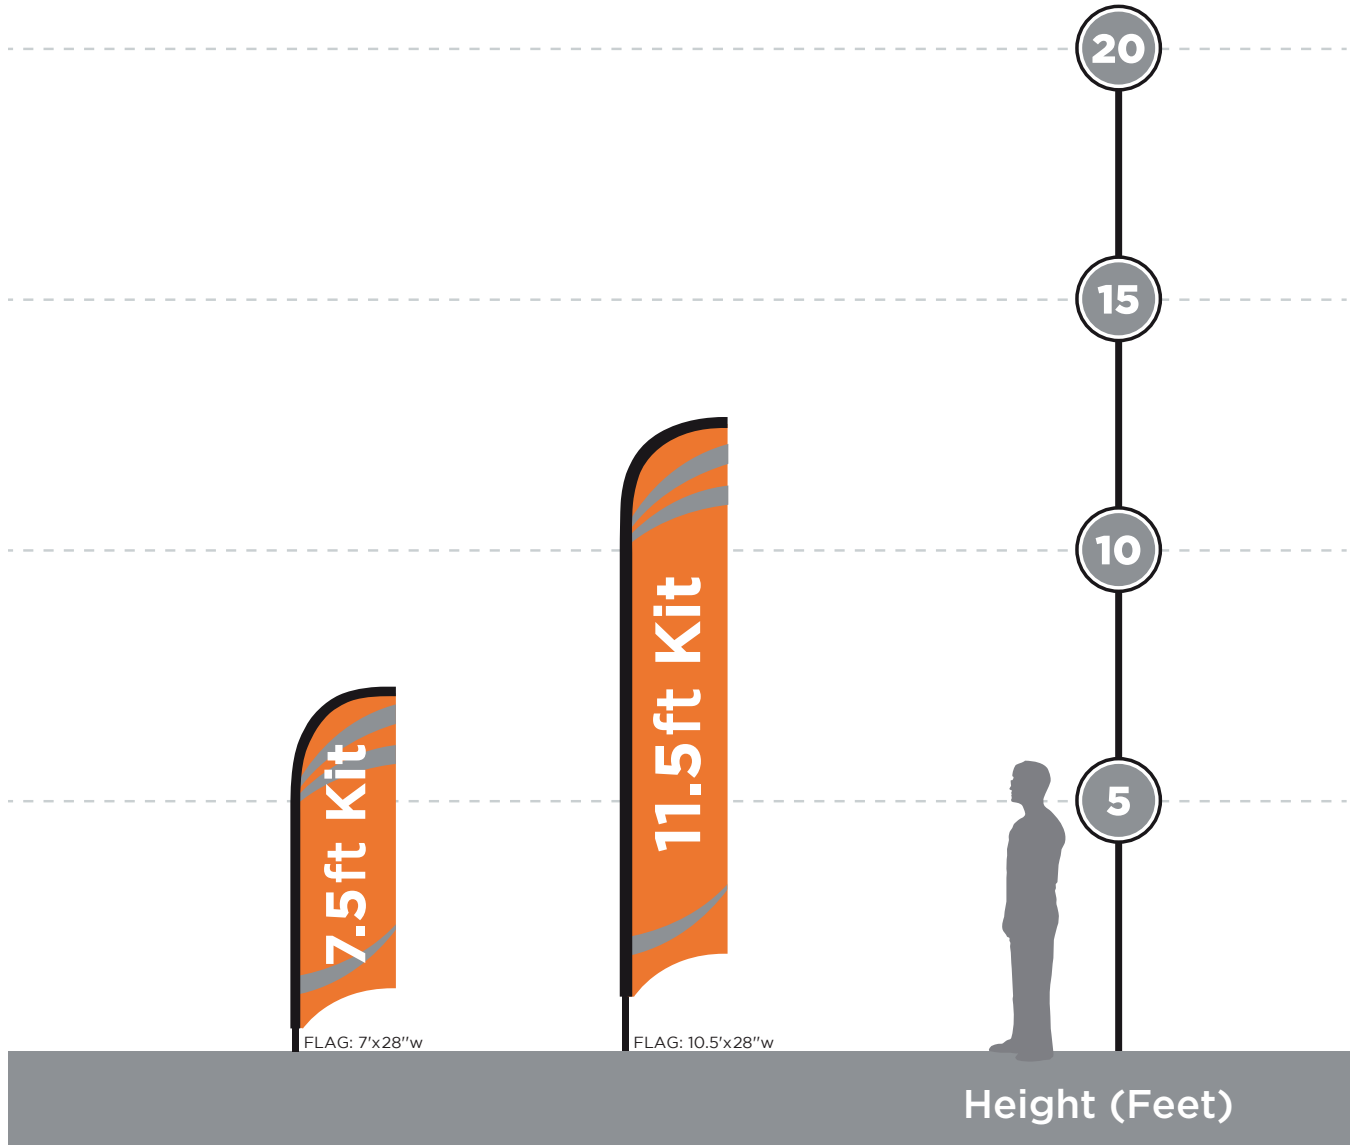

Kit includes flag with metallic streamers, flagpole hardware, and a fiberglass ground stake.

# FEATHER FLAG KITS

Feather Flags are wind directional and stay open for 24/7 readability regardless of wind speed. Flags are digitally printed right-reading front, reverse-reading back (1S) and most sizes are available right-reading on both sides (2S).

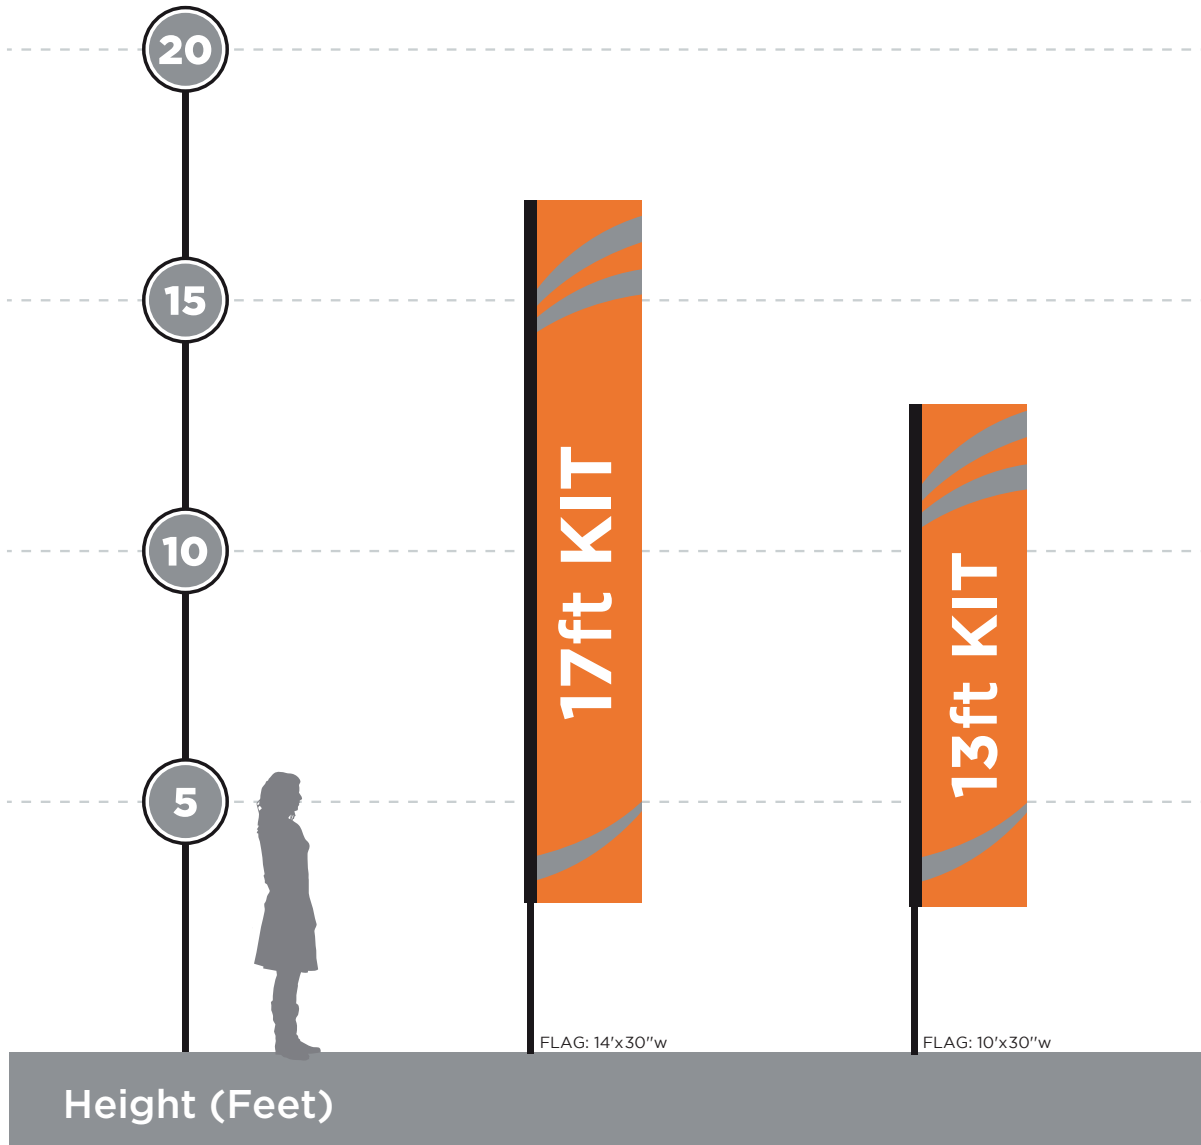

Kit includes flag, flagpole hardware, and a fiberglass ground stake.

# VERTICAL FLAG KITS

Vertical Flags combine the eye-catching movement of our Swooper Flags with the large real estate and ease of layout found in a rectangular format. Great for retail businesses and property management promotions, Flags are digitally printed with a right-reading front and reverse-reading back (1S).

Kit includes flag, flagpole hardware, and a fiberglass ground stake.

# HORIZONTAL FLAGS

Custom flags are perfect for displaying a logo at businesses, city halls, schools, arenas, and stadiums, or they can promote an upcoming event. Flags are digitally printed on polyester flag cloth using water-based heat-set dye sublimation inks. Flags are single sided (1S) or double sided (2S) with a block out layer in-between.
